# Permutations

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

(1) The “choosing from” method:

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

(1) The “choosing from” method:

(2) The “inserting into” method:

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

- (1) The “choosing from” method:      (2) The “inserting into” method:

Prove by mathematical induction on  $n$ .

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

Prove by mathematical induction on  $n$ .

$P(n)$  : # of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

Prove by mathematical induction on  $n$ .

$P(n)$  : # of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$

B.S.  $P(1)$

I.H.  $P(n)$

I.S.  $P(n) \rightarrow P(n+1)$

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

Prove by mathematical induction on  $n$ .

$P(n)$  : # of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$

B.S.  $P(1)$

I.H.  $P(n)$

I.S.  $P(n) \rightarrow P(n+1)$

## DH 2.9: # of Permutations

Prove that the number of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$ .

Prove by mathematical induction on  $n$ .

$P(n)$  : # of permutations of  $A_n = \{1 \cdots n\}$  is  $n!$

B.S.  $P(1)$

I.H.  $P(n)$

I.S.  $P(n) \rightarrow P(n+1)$

Choosing from

Inserting into

## DH 2.11: Generate All Permutations

Design an algorithm which, given a positive integer  $N$ , produces all the permutations of  $A_N$ .

## DH 2.10: Permutation Checking

- ▶ An integer  $n$
- ▶ An array of integers  $P$  of length  $n$

To check whether  $P$  is a permutation of  $1 \cdots n$ ?

## DH 2.10: Permutation Checking

- ▶ An integer  $n$
- ▶ An array of integers  $P$  of length  $n$

To check whether  $P$  is a permutation of  $1 \cdots n$ ?

## DH 2.10: Permutation Checking

- ▶ An integer  $n$
- ▶ An array of integers  $P$  of length  $n$

To check whether  $P$  is a permutation of  $1 \cdots n$ ?

- ▶ Boolean array  $[1 \cdots n]$

## DH 2.10: Permutation Checking

- ▶ An integer  $n$
- ▶ An array of integers  $P$  of length  $n$

To check whether  $P$  is a permutation of  $1 \cdots n$ ?

- ▶ Boolean array  $[1 \cdots n]$
- ▶ Sort

## DH 2.10: Permutation Checking

- ▶ An integer  $n$
- ▶ An array of integers  $P$  of length  $n$

To check whether  $P$  is a permutation of  $1 \cdots n$ ?

- ▶ Boolean array  $[1 \cdots n]$
- ▶ Sort
- ▶  $\forall x : x \in [1 \cdots n]$
- ▶ check for duplication

# Stackable Permutations

## Definition (Stackable Permutations)

`read(X):`  $\gg X$

`print(X):`  $\ll X$

`push(X, S):`  $S \leftarrow X$

`pop(X, S):`  $X \leftarrow S$

## Definition (Stackable Permutations)

read( $X$ ):  $\gg X$

print( $X$ ):  $\ll X$

push( $X, S$ ):  $S \leftarrow X$

pop( $X, S$ ):  $X \leftarrow S$

## DH 2.12: Stackable Permutations

(a) Show that the following permutations can be obtained by a stack:

- (i)  $(3, 2, 1)$
- (ii)  $(3, 4, 2, 1)$
- (iii)  $(3, 5, 7, 6, 8, 4, 9, 2, 10, 1)$

## DH 2.12: Stackable Permutations

(a) Show that the following permutations can be obtained by a stack:

- (i)  $(3, 2, 1)$
- (ii)  $(3, 4, 2, 1)$
- (iii)  $(3, 5, 7, 6, 8, 4, 9, 2, 10, 1)$

## DH 2.13: Stackable Permutations Checking Algorithm

Design an algorithm that checks whether a given permutation can be obtained by a stack.

push   pop   *is-empty*

## DH 2.12: Stackable Permutations

(b) Prove that the following permutations cannot be obtained by a stack:

(i)  $(3, 1, 2)$

(ii)  $(4, 5, 3, 7, 2, 1, 6)$

## DH 2.12: Stackable Permutations

(c) How many permutations of  $A_4$  *cannot* be obtained by a stack?

## DH 2.12: One Stack and Permutations

- (a) Sufficient and necessary condition
- (b) How many?

Thank  
You!
