 \exists poly. time verifier V(x,c) such that

比如给定一个无向图

GPA还没上4.99的鄢振宇

要求找出一个有k个点的诱导子图

GPA还没上4.99的鄢振宇

使得该诱导子图存在 hamiltonian cycle

Instance: Graph $G = (V, E), k \in \mathbb{N}$

QUESTION: Is there a V'-induced subgraph G[V'] of G with $|V'| \ge k$

which is Hamiltonian?
